

144 Lake Bonavista Scout Group 144scouts.ca

Beavers have been working on their Beaver Buggies and trekked out to the island across our community's fantastic frozen lake!

Cubs recently spent a fun weekend at Winchell Coulee and are now busy building their Kub Kars – the regional (indoor) races start soon!

Scouts practiced their aim at the archery range and had a fun evening skating at the lake. Indoors, they are designing and building Scout Trucks to race against other scout groups at the regional meet.

Do you remember the first weekend in February this year when much of Calgary was shut down? Well, our lucky group were already up in the mountains checking out the ice sculptures at Lake Louise and skiing on the deep and plentiful fresh snow at our annual ski camp. Most of us slept in comfy cabins while the enterprising Venturers built themselves an igloo a few even slept in it!

Venturers and Rovers have been upgrading their winter survival gear and skills at the regional Winter Camp expeditions and are now busy preparing for their spring challenge in Kananaskis - a snowshoe backpacking trip.

The 144 Group's Beavers, Cubs, Scouts, Venturers, Rovers, and their volunteer leaders enjoy indoor and outdoor activities around Lake Bonavista all year. If you are interested in joining our vibrant community group, check out our website: 144scouts.ca or call our Group Commissioner, Andy den Otter: 403.271.8631.
